PROFESSIONAL SUMMARY

Multidisciplinary Engineer specializing in **Autonomous AI Agents**, **RAG architectures**, and **Full-stack Cloud Systems**. Built **550+** AI agents and deployed **150+** production projects. 3x National Hackathon winner. Expertise spans from high-performance React/Next.js interfaces to complex backend orchestration with Python/Node.js and WordPress/PHP engineering. Founder of two tech-driven startups, focusing on delivering premium digital experiences and autonomous workflow automation.

TOP REVIEWS

TECHNICAL EXPERTISE

AI Engineering:

OpenAI LangChain CrewAI

Anthropic RAG MCP

Pinecone

Backend:

Python Node.js FastAPI

PHP WordPress Express

GraphQL

Frontend:

React 19 Next.js 15

TypeScript Tailwind

Framer Motion Redux

Infrastructure:

Docker K8s AWS GCP

CI/CD Vercel PostgreSQL

PROFESSIONAL EXPERIENCE

Founder & Lead Architect — MARSА Empower

JAN 2026 – PRESENT

Women's Empowerment Platform • marsaempower.com

- Architected an autonomous multi-agent ecosystem orchestrating **115+** digital FTEs for content and operations.
- Designed agentic workflows using **MCP protocols** for real-time safety monitoring and community engagement.
- Led entire technical stack development (Next.js, Python/FastAPI, Supabase) and product strategy.

Founder — CodePulse Innovations

JUN 2025 – PRESENT

AI Digital Products • [FolioGenerator.com](https://foliogenerator.com)

- Developed **FolioGenerator.com**, an AI-driven platform for automated professional portfolio creation.
- Implemented a sophisticated content drafting pipeline with agentic reasoning, achieving high factual accuracy.
- Managed end-to-end product lifecycle from UI/UX design to distributed cloud deployment.

Freelance AI & Full-Stack Engineer

2024 – PRESENT

Fiverr & Upwork • International Clients

- Delivered **10+** enterprise-grade E-commerce platforms with custom Stripe and ShipEngine integrations.
- Built custom AI Agents and RAG systems for diverse global industries, maintaining a **100% 5-star rating**.
- Specialized in WordPress to Next.js migrations and hybrid headless WordPress architectures.

HACKATHON SUCCESS (3 WINS / 3 ENTRIES)

1ST PLACE

Physical AI & Robotics Digital Ecosystem
Multi-agent RAG-powered learning platform for Humanoid Robotics. Scored **98% on technical architecture**.

Next.js

OpenAI

ROS 2

Docusaurus

WINNER

Kubernetes-Orchestrated AI Productivity Suite
Distributed system with auto-scaling, health checks, and CI/CD. Built for extreme scale and availability.

Kubernetes

FastAPI

Docker

PostgreSQL

KEY PROJECTS

100 Days of AI Agents
Built 550+ unique agents covering everything from workflow automation to autonomous study planners.

Python

LangChain

n8n

Jarvis Offline Assistant
On-device local AI assistant for desktop control and offline reasoning using Quantized LLMs.

HuggingFace

Ollama

Python

Enterprise Marketplace
Full-stack electronics marketplace with high-concurrency order processing and inventory sync.

Next.js

Stripe

Supabase

Headless WordPress Portal
Performance-optimized blog using WordPress as CMS and Next.js as frontend for sub-second LCP.

GraphQL

WP Engine

React

PROFESSIONAL EDUCATION & CERTIFICATIONS

Certified Generative AI Engineer
Governor Sindh Initiative (GIAIC) • 2024 – 2027

Certification

Certified Agentic-AI Cloud Engineer
PIAIC • 2024 – 2027

Certification

Intermediate — Pre-Engineering
SM Govt. Science College, Karachi • 2023 – 2025
